1. This Office action is in response to the application filed 9/5/03.

2. Claims 1-9 are allowed.

3. The following is an examiner's statement of reasons for allowance:

No prior art references include a display for indicating the status of compression of a seal in a door in conjunction with a plurality of electrically coupled switches disposed under said seal, wherein actuation of all the switches by compression of the seal causes the display to indicate the door is closed. The gel sealant enclosure taught by **Chandler et al** [U.S. 6,494,464] gives a visual indication of a seal. However, this is not a display assembly actuated by a plurality of switches.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

**Meyvis** [U.S. 5,565,843] is a visual display panel on a garage door.

**Parsadayan** [U.S. 6,317,489] has a visual display for an access control.

Art Unit: 2636
